Introduction - NEPCon is conducting forest management and chain of custody certification assessment of the Ocolul Silvic Municipal Bistrita, located in Bistrita, Bistrita-Nasaud County, Romania. The assessment will be implemented from 7th of November 2016 to 9th of November 2016.

The FMUs included under evaluation: **Bistrita City (FMU Bistrita), Livezile Commune (FMU Livezile)**

Scope of the Certification Assessment - The forest management certification assessment will assess the environmental, silvicultural and socioeconomic aspects of the forest managed by Ocolul Silvic Municipal Bistrita, using the “*NEPCon Interim Standard for Assessing Forest Management in Romania*”. To obtain a copy of the applicable guidelines or to make comments about these standards, please contact NEPCon by telephone, email or website listed below. Please note that the standard may be modified to take account of stakeholder comments. NEPCon is accredited by the Forest Stewardship Council™ (FSC™) and this assessment process must follow procedures which have been approved.

The forest under evaluation contains areas either identified as High Conservation Value Forests or where high conservation values, as defined by the FSC, are likely found. NEPCon evaluates the identification, management and protection of these High Conservation Values and solicits related comments from stakeholders.

Assessment Team Composition - The assessment team will be led by Piotr Nowak, Lead Auditor (Poland). The team members will be: Alexandru Orban, Ionut Barnoiaea and Gabriel Duduman
